➤ Purpose

Our goal is to provide equal justice and access to the law to all.

The information available in the Self Help Center is one of many things the courts have done to give you information about how to access court services.

The staff can help you understand what happens at court. You can find out about court procedures, access forms, and information about community resources in Alameda County.

➤ SERVICES

We are able to help both parties. That means we may also help the other side in your case.

We do not represent you, will not act as your lawyer and your meetings with us are not private or confidential.

To hire a lawyer, contact the Alameda County Bar Association's Lawyer Referral Service at 510 893-7160.
